Human Resources Management and Development for Non-HR
Apply Electrical Safety for ICO - Advanced
Regulatory Monitoring: Building & Formulating Positions Principles
VAT implementation Considerations & Risk Management
Due Diligence: Making Better Decisions
Conducting Communication Analytics
Payroll Management
Advanced - ERM Risk Assessments
Participation in Oil - Gas Engineering Conferences - Seminars-Classroom
Essentials of Budgeting and Forecasting for Non-Finance Professional
A Strategic Approach Towards Security Risk Management
O&M Contracts and Agreements - Basic
Thinking Ahead: A Strategic Response Using Financial Strategies
Job Costing and Process Costing
Strategies to Business Growth
Facilities Management
Strategic Inventory and Materials Management
Oil and Gas Accounting I
Effective Legal Management of External Relations
Fundamentals and Lessons Learnt in Mediation, Arbitration & Litigation
NEBOSH International Diploma in for Occupational Health and Safety Management Professionals-Unit1
Maintenance Budgeting and Control - Basics
Advanced Contract Negotiation Skills for Lawyers
Administering Building Maintenance
Influencing Strategic Decisions through Financial Strategies
Introduction to Cash Management
K Group Pricing Policy Development (Company Specific- KPC)
Strategic - Capital Funding Modeling
Scaffolding-FPSD
Fundamentals of Planning-Classroom
Managing Legal Support for Internal & External Audits
Managing the Telecom and System Security Certifications
Environment Sustainability and CSR Initiatives (Company Specific)
Classroom : To be decided by the supervisor for Audit Skills Competency
Essentials of Media Intelligence
Earned Value Project Management (Intermediate)-Classroom
Training Needs Analysis
Supervision Skills(Intermediate)-Classroom

Enhancing Performance Measurement Process
Depots Operations & Safety-L2A
Essentials of Financial Performance Measurement & Reporting
ISO Standards.
Introduction to Contracts & Risk Management (Company Specific)
Earned Value Project Management (Intermediate)-Classroom
Security in Crisis Management
Principles of Quality Assurance
Essential of Data Capacity and Availability Management
HSSE Risk Assessment and Effective Measures
Introduction to Stock Control and Optimization
Alarm Management
Internal Control: Compliance, Operational and financial
GEXCON FRED Introductory Course
Build the Reputation: Manage the Crisis
Mastering General Services Policies and Procedures
Middleware: Concept, Design and Deployment of Infrastructure
Introduction to HSSE - 5
Behavioral Based Safety (BBS)-FPSD
Managing Project Identification and Evaluation
Database: Fundamentals
Principles of Accounting for VAT
Contracts Management - Advanced-Classroom
CSR Strategies and Campaigns
Planning & Logistics-Classroom
Introduction to Refinery Production and Processing (Company Specific- KNPC, KPC and KPI)
Claims in Construction Contracts - Advanced-Classroom
Fixed Assets Accounting and Management
Software Testing
Managing Social Media and Website
Commercial Policies & Procedures Manual: Materials Management (Company Specific)
HSEMS Procedures For Process Engineers (HAZID / HAZOP / EIA / QRA /SIL)-Classroom
Managing Database Standards
A Strategic Approach To Security Data Management
Project Management for Civil Engineers: Planning, Scheduling and Control
Essentials of Project Identification
Methodologies of SDLC
The Test for Application Security
Integrated Business Planning and Strategic Decision-Making
Expert - Strategic Options Modeling
Project Management - Advanced-Classroom

Human Capital Essentials
Essentials of Legal Infrastructure
Construction Management - Advanced-Classroom
Analyzing and Maintaining Materials Stock Optimization
Understanding the global petroleum Industry (Company Specific- KNPC, KPC and KPI)
Basic contract management & administration. - Advanced-Classroom
Core to Employee Administration
Enhancing HSSE Safety Performance and Effectiveness
Advanced Contractual Negotiation Techniques
Mastering Prompting Engineering: Unlocking the Power of Copilot AI Tools in Microsoft
Essentials of IT Capacity Planning
Strategies for Service Delivery Performance
Stuck Pipe Prevention
Roads, Paving, Drainage and Earthworks - Intermediate
Maintain QMI (Analysers & Sample Systems) - Fundamental
Refinery Induction
Chemical Enhanced Oil Recovery Fundamentals
Introduction to Water Treatment Facilities - Fundamental
Electronic Design & Data management system software
Reservoir Fluid Properties:Preparation for Reservoir Engineering and Simulation Studies
Predictive Maintenance, Machinery Failure Analysis ,Troubleshooting and vibration.
API 577
Centrifugal Pump Selection, Construction, Operation, Maintenance, Repair & Troubleshooting
Resource and Reserve Evaluation
Internal Corrosion for Pipelines-Advanced-Classroom
INTERMEDIATE Course - Damage assessment and maintenance of road and pavement structure
PREVENTIVE MAINTENANCE PLANNING-Classroom
AutoCAD 2D -Classroom
Catalyst and Chemical in Petroleum & Refining Industries
Pipeline Networks for Engineers - Intermediate / Advanced
Boiler Design, Maintenance & Inspection Technology
Heaters
Materials Specification and Standards - Basics
Borehole Seismic Acquisition, Processing and Operations
Safety Relief Valves Operation, Inspection and Repair (Training)
Essentials of O&G Value Chain
Advance Training on water treatment.
Refinery Section Supervision
Production Wells & Associated Systems - Basic
PCP Troubleshooting and Maintenance

Tools, Gaskets & Heavy Equipment
Control Regulators-Classroom
Preventive maintenance methods (Planning, coordinating)
Basic Soil compaction theory-Classroom
Piping Software -AUTOPIPE (Intermediate)
Training in API 570, 510 & 653
Level-3 -Drilling and Work-Over Operations-Stuck pipe prevention
EQUIPMENT FOR TECHNICIANS(Advance)-Classroom
Resources & Reserves Management
Cathodic Protection Technologist (NACE Certification)-Classroom
MACHINERY & EQUIPMENT MAINTENANCE Program(Intermediate)-Classroom
Sizing of PSVs, Control Valves and Orifices
Operating Crude Treatment Facilities - Advanced
Level-3 -HPHT Planning & Operations-Pore pressure, Frack Gradient, Mud, Casing, Cement, Well hydraulics, drill string design, HPHT well control
Reservoir Simulation Fundamentals
Dewatering and Groundwater Control
Level-3 -Drilling and Work-Over Operations-Running Casing Operations
BEST MAINTENANCE PRACTICES
BGAS-CSWIP Site Coatings Inspector- Classroom
Casing and Cementing
Directional Drilling, Horizontal and sidetracking
AMPP- Internal Corrosion for Pipelines (Basic)
ASNT Ultrasonic Testing Level II
Concrete and Steel works - Intermediate
Oil Demulsification Application - Advanced
Preparation of Technical part of Contract
Inspect and Evaluate Performance of Rotating Equipment - Advanced
Advanced Process Control (APC) application development and online deployment
WELDING ENGINEERING and TECHNOLOGY(Intermediate)-Classroom
API Standards and Recommended Practices.
Pipeline Simulations for Engineers - Intermediate / Advanced
Operations & Troubleshooting of Waste Water Treatment Plant
Land Seismic Acquisition Techniques and Survey Design
MAINTENANCE ESTIMATION and SCHEDULING
Formation Damage: Causes, Prevention, and Remediation
FUNDAMENTALS OF MAINTENANCE-Classroom
2D & 3D Seismic data interpretation
Inspect, Test & Maintain Piping, Flowlines & Headers - Advanced
Ultrasonic Phased Array and TOFD-Classroom
Control Algorithms-Classroom
Control System Theory-Classroom

Introduction to PROSPER software
SMARTPLANT ELEC-Classroom
Fuel Systems-Classroom
Design for Corrosion Control (with NACE certification)-Classroom
Digital OilField (DOF)/Integrated Operations (IO) Fundamentals for Oil & Gas Professionals & Workshop
Gas Sweetening & Sulphur Recovery for Engineers - Advanced
Well Stimulation: Practical and Applied
SRP Operation - For A/L Technician & Engineer
Core and Log integration
Process Reactors: Operation, Troubleshooting, Start -Up & Shutdown
Electrical Submersible Pumps - Application Engineering
Coiled Tubing Interventions
ASME Pressure Relief Devices: Design, Sizing, Construction, Inspection and Maintenance
Boiler Operations Maintenance & Steam Management
Vavles and Staem Traps
Gas Processing Simulations for Engineers - Intermediate
Distributed Control System Operation
Troubleshooting & Operating equipment
Fabrication & Welding - Advanced
Foundation of Petrophysics
Direct Assessment for Pipelines (with NACE examination and Certification)-Classroom
FITNESS FOR SERVICE (API-579)-Classroom
Maximum Life Cycle profit Maintenance and Reliability
Integrated Production Modelling software (IPM)
SHELL DEPs & KNPC Engineering standards awareness
Oilfield Corrosion Monitoring & Control - Advanced
Inspect and Evaluate Performance of Rotating Equipment - Fundamental
Fundamentals of Engineering Drawings
Operation of Water Knockout System - Intermediate
ASSET MANAGEMENT / SPI / FDM
Level-3-Drill String and Bits-Drill-string design and failure prevention Bit selection, bit hydraulics
Field Chemical Trials - Advanced
PLAY ASSESSMENT & PROSPECT EVALUATION
Operating & Testing Lifting Equipment - Fundamental
Root Cause Analysis
Technical Knowledge base and Standards applicable for Instrumentation
Design of Concrete Structures
Seismic Imaging of Subsurface Geology
Integration of Well Planning and Construction process
Fishing Operations (Drilling and Work-Over Operations)

Reservoir characterization/ description (including facies & rock typing)
Pigging Operations - Advanced
CSWIP Level -1
Maintain Pressure Vessels & Process Equipment - Advanced
New Materials and Technologies
Programmable Logic Controllers (PLCs) And SCADA Systems
Directional, Horizontal, and Multilateral Drilling
Make & Break Flanges & Protocols - Advanced
Reservoir Simulation
Petroleum Risk and Decision Analysis
Process Unit Operations & Maintenance(Advanced)
Applied Rock Mechanics
ASME Applications of Welding
Centrifugal Compressor and Steam Turbine(Intermediate)
Piping Software -CAESER-II (Intermediate)-Classroom
Level 3-Completion-Completion design (in collaboration with PEs)
Electrical Circuits and Wiring Systems-Classroom
Operation of Water Injection Plant - Advanced
Diagnostic methods for equipment failure-Classroom
CIP Level 1 - Coating Inspector Program Eng. (Certification)
Principles of Failure Analysis -ASM certification
Integrated Production system, Gathering Network and Flow of Fluids
Managing Well Site Operations
Heavy Oil Exploitation
PIPING SYSTEMS(Intermediate)-Classroom
Unconventional Resources Completion and Stimulation
Subsurface Facies Analysis: Integrating Borehole Images and Well Logs with Rock Physics and Seismic Data to Develop Geologic Models
Applied Petroleum Geology with special emphasis on ME geology
Maintain Fire & Gas Control System - Advanced
Fluid Properties and Phase Behavior (PVT)
OIP estimation and range of uncertainty
Operations Upsets and Root Cause Analysis -Classroom
Advanced Hydraulic Fracturing
API, SHELL DEP & KNPC Standard
Computerized Maintenance Management SystemProject Management
Control Panels-Classroom
Operation Geology
Advanced slickline operation
EXPERION: PKS SERVERS C-300 CONTROLLER
Non-Seismic Geophysical Methods
Operating Storage Tank & Export System - Intermediate

CSWIP Level -2
Training on use of Hysys Simulation.
Basic Corrosion (NACE)
Basic Control Systems Engineer Training- New Grad Engineer School (ILT)-Classroom
Technical Report Writing
Mechanical Failure Analysis and Prevention
Gas Turbine Design Operation and Troubleshooting
ASME VIII, Div. 1 Pressure Vessel Fabrication-Classroom
Failure Analysis & Reporting-Classroom
SMARTPLANT 3D-Classroom
Process Troubleshooting
SMARTPLANT INST-Classroom
FLOW METERING
Uninterruptible Power Supply System (UPS)
Advanced Cementing
Digital Signal Analysis in Seismic Data Processing
Operations Fundamentals
Failure Analysis Methodologies for Mechanical engineers.
PV Elite
Operation of Central Injection Pumping Facility - Advanced
ASNT Visual Testing (VT) Level II
Basin and Play Fairway Analysis
Courses on Advanced Vibration , Failure Analysis and Advance Troubleshooting
Training on Calibration of conventional NDT equipment
Control Valves and Positioners-Classroom
Operations Improvement
Refinery Process Design, Improvements & Operations Trouble Shooting
Design, Fabrication and Inspection of Fired Heaters
Equipment Operation(Advanced)
Principles of Failure Analysis with ASM certification-Classroom
Static Equipment Process Design
Storage Tank
Directional,Horizontal, and Multilateral Drilling
Machinery & Processes - Advanced
Introduction to Field Development Planning
Metallography Interpretation
Reliability and Maintainability Analysis for Repairable Systems
Fabrication & Welding - Fundamental
Vessel, Tower and Reactor Maintenance
Structural geology Advance
Pipeline Corrosion Assessment Field Techniques (P-CAFT)
Maintain Instrumented Protection Systems (IPS) - Fundamental

Importance and Process of Drilling Optimization
Intro to Crude Treatment Facilities - Fundamental
API 653 Aboveground Storage Tank Inspector Preparation Course + Examination-Classroom
Advanced Nodal Analysis
Custody Transfer and Flow Measurement(Intermediate) -Classroom
Knowledge Management for Oil and Gas Industry
Chartering: A Practical Approach
Bills of Lading and Related Cargo Claims
